New York, N. Y .- Burton W. Gibson, the New York lawyer, whose client, Mrs. Rusena Menschik Szabo, lost her life when boating with him on Greenwood lake, New York, on July 15, was taken into custody by Deputy Sheriff de Graw of Orange county, on a warrant charging Gibson with murder in the first degree. The warrant was issued at Middletown, N. Y., by Judge Royce, after evidence that the woman, who left an estate of \$10,000, had been strangled, had been laid before him.

Gibson came to the city, trailed by private detectives and a squad of reporters. As he walked through the streets to his office a crowd of several hundred persons followed him. Gibson, with a private detective, went to his office and awaited the arrival of De Graw.

Gibson explained that while he was not worried about the strangulation charge, he had felt a bit anxious over the outcome of the autopsy, fearing that poison in the embalming fluid would lead to a mistaken impression that a poison had been adminstered. He added, however, that he had looked up the law an found that the use of an embalming fluid containing an active or irritant poison was no

longer permitted. "I ceased to worry after that," said the lawver.
